

CONTRACTING VEHICLES

Sain Engineering Associates, Inc. (SEA)

Contact Us - 205.979.9966 | www.saineng.com

SEA has several contracting vehicles for government agencies to use and obtain expertise to aid in achieving Energy Program goals. If you represent a U.S. government agency, military or civilian, you can use SEA's funding contracts as a quick and convenient way to get SEA's assistance for your energy conservation program. SEA provides GSA, BPA and Unicore contracts.

GSA MAS Contract 03FAC

Government agencies have a streamlined method to obtain a wide variety of products and services to meet the agency's energy management goals through the U.S. General Services Administration (GSA) Federal Supply Service Multiple Ward Schedule (MAS) 03FAC. If you represent a U.S. government agency, you can use SEA's MAS Contract 47QSHA18D000D as a quick and convenient way to get assistance with your Energy conservation program. Services SEA provides through the GSAOFAC schedule, include:

- 541690E: Energy Consulting Services
- 541690: Integrated Logistics Support
- ANCILLARY: Ancillary Supplies and Services
- ANCRA: Ancillary Repair & Alterations
- NEW: Introduction of New Supplies and Services
- OLM: Order - Level Materials

GSA MAS Contract 00CORP

SEA also provides contract services for Schedule (MAS) 00CORP Professional Services by using contract 47QRAA20D000V as a quick and convenient way to get assistance with your construction management, building commissioning and other engineering services. Services SEA provides through the GSA schedule for 00CORP Professional services, include:

- 541330ENG - Engineering Services
- OLM - Order Level Materials

US Army Corps of Engineers BPA

This BPA, issued by the U.S. Army Engineering and Support Center, Huntsville (USAESCH), is for Resource Efficiency Managers (REM) and other energy utilities services. The BPA provides for resource efficiency management services and energy management assistance by supplying qualified energy management professionals to support a comprehensive range of Energy and Water Management Program activities at Government installations. Under this BPA# W912DY-16-A-002, SEA provides REM services, Energy Engineering Analysis (EEAP) and supports numerous NetZero projects and efforts at multiple Army installations. For more information on this IDIQ, please contact USAESCH or SEA.

UNICOR <https://www.energy.gov/sites/prod/files/maprod/documents/ACqGuide17pt1.pdf>

UNICOR is an expedited, turnkey contracting vehicle available through the Department of Justice (DOJ) Federal Prison Industries and is available to Federal Agencies via the Economy Act1 for Federal Energy Efficiency and Renewable Energy Projects contracting. The UNICOR design/build contract vehicle is a tool Federal Agency customers can use to address a wide variety of energy-related requirements through a single, turnkey contractor. SEA, along with its UNICOR partner, Con Edison Solutions, can deliver turnkey energy services and improvements for the following:

- Boiler Plants
- Chiller Plants
- Building Automation Systems (BAS)
- Energy Management Control Systems (ECMS)
- Heating, Ventilation and Air Conditioning (HVAC)
- Lighting and Lighting Controls
- Building Envelope
- Chilled/ Hot Water and Steam Distribution
- Motors and Drives
- Refrigeration
- Distributed Generation
- Renewable Energy Systems and Storage
- Energy/Utility Distribution Systems
- Transformers
- Power Quality
- Power Factor Correction
- Water/Sewer Conservation
- Electrical Peak Shaving/Load Shifting
- Energy Related Processes
- Commissioning/Retro-Commissioning
- Appliance/Plug Load Reductions

*Advanced Metering Systems can be offered only in conjunction with other measures that reduce consumption.
